

RIC 2002

Session W6

Reactor Oversight Process (ROP)

Douglas H. Coe
Chief, Reactor Inspections Section
Inspection Program Branch
Organization: DIPM/NRR/NRC
Date: March 6, 2002

SDP Continuing Challenges:

- Timeliness of Final SDP Results
- Risk Communication Internally and Externally
- Consistency of Application
- Role of Phase 2 Process
- Accident Sequence Precursor Program and SDP Coordination

SDP Improvement Actions:

- Earlier Staff/Management Focus on Potentially Untimely SDP Issues
- Improve and Further Develop SDP Process, Tools, and Training
- Improve Clarity/Alignment on Risk-Informed Decision Making Guidance for Use Within ROP
- Clarify Expectations for Coordination Between Related ASP and SDP Analysis
