The Nuclear Regulatory Commission staff will meet on Friday, April 19, with representatives of Nuclear Management Company to discuss the results of the agency's annual assessment of safety performance at the Palisades Nuclear Power Station. The two-reactor facility is located near South Haven, Michigan.

The meeting, which will be open to the public for observation, is scheduled to begin at 1:30 p.m. in the Guest House International Lighthouse Inn, 1555 Phoenix St., South Haven. Before the meeting is concluded, NRC officials will answer questions from members of the public.

The performance period to be discussed is April 1 through December 31 of last year.

A letter sent from the NRC Region III office to Nuclear Management Company addresses plant performance during the period and will serve as the basis for the meeting discussion. It is available on the NRC web site at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/LETTERS/pali_2001q4.pdf
