MEETING MINUTES: Internal IMC 0350 Restart Panel Meeting
Davis-Besse Nuclear Power Station

DATE: May 6, 2002

TIME: 11:00 am (Central)

ATTENDEES:

S. Bloom	C. Lipa
L. Collins	A. Mendiola
W. Dean	D. Pickett
J. Grobe	D. Simpkins
J. Jacobson	

Agenda Items:

1. Reports from Staff

Repair/Replacement Plans (DE)

A telephone call for today has been setup with the licensee to discuss head replacement as a viable option.

Risk Analysis (DSSA/SRA)

A TIA was submitted to NRR on Friday, May 3 to request assistance with the phase 3 analysis. Followup questions on the licensee's analysis will be sent today with a requested due date of May 10. The "risk question(s)" to be answered in the phase 3 will be discussed at the May 9 internal panel meeting. Staff from the inspection program branch will be invited to attend to discuss the SDP process.

Allegations/Investigations (EICS, OI)

No staff report. The panel will request an update approximately every 2 weeks.

Licensing Issues/Actions (DLPM)

Mr. Mendiola discussed the four green ticket items that are being worked. The panel discussed what the panel involvement should be in reviewing public communications and agreed to add an agenda item to discuss the status of public communications.

2. IMC 0350 Panel Business

Inspection Schedule

This item was not discussed.

Process Plan/Restart Checklist Updates

The process plan was issued May 3. No updates were discussed for either the process plan or restart checklist during the meeting. The panel members were requested to submit potential restart checklist items to Christine Lipa or Laura Collins.

3. Utilization of the Web Page

The AIT report was issued Friday and will be publicly available May 9. This will be put on the website on May 9.

The web page was updated with a section for 0350 panel activities.

Mr. Dean briefly discussed the use of the NRR/DE status report to periodically brief management. The panel agreed to discuss this further at the next meeting.

4. Future Activities/Plans/Meetings

May 9, 2.206 meeting

The purpose is for the Petition Review Board (PRB) to meet with the petitioners. RIII and the licensee are invited to listen to the discussion.

5. Discuss how to handle public or staff comments, questions, allegations, and concerns received by phone, fax, letter, email, or at public meetings.

The panel discussed this item briefly, specifically with regard to questions/comments during public meetings. The consensus was that if questions are answered during the public meeting there is no need to document the question/answer in a meeting summary. However, if there are take-away questions, the answers should be documented in a meeting summary.

6. Assess available Davis-Besse information (PI data, inspection findings, etc.) for the last assessment cycle.

The panel reviewed the PI data and inspection findings. All inputs were green and provided no significant insights for the panel to use during the IMC 0350 oversight process. The panel agreed to close this task in the Process Plan.
