

Source material < 0.05 wt%
Unrefined and unprocessed ore
Incandescent gas mantles
Vacuum tubes
Welding rods
Electric lamps
Germicidal lamps, sunlamps, etc.
Rare earths \leq 0.25% source material
Personnel neutron dosimeters
Glazed ceramic tableware
Piezoelectric ceramic
Glassware
Glass enamel or glass enamel frit
Photographic film, negatives, prints
Tungsten or mag-thorium alloys
Uranium in counterweights
Uranium in shipping containers
Thorium in optical lenses
Aircraft engine parts
Fire detection units
