Subject: Revision 11 to the YNPS Security Plan

Pursuant to 10CFR50.54(p) and 10CFR50.4(b)(4) of the Commission's Rules and Regulations, Yankee Atomic Electric Company (YAEC) is informing the Nuclear Regulatory Commission (NRC) of a change to the Security Plan for the Yankee Nuclear Power Station (YNPS). Revision 11 to the Security Plan updates site layout Figure 3.1.1-1 to reflect the Independent Spent Fuel Storage Installation (ISFSI). This revision also updates the Gatehouse plan view, Figure 3.2.13-1, to reflect recent Gatehouse interior modifications. Finally, the responsibility matrices within the main body and Attachment A (ISFSI) have been revised to correct a typographical error in order to identify the Security Shift Supervisor as well as the Plant Shift Supervisor for the last two events. An evaluation of this change in accordance with 10CFR50.54(p) has determined that it does not reduce the effectiveness of the YNPS Security Plan and the Security Plan as a whole continues to meet the standards of 10CFR73.55 as applicable.

If you should have any questions, please contact Mr. James A. Kay (978) 568-2302.

Very truly yours,

YANKEE ATOMIC ELECTRIC COMPANY

Brian Wood  
Decommissioning Manager/Site Manager  
Yankee Nuclear Power Station
