Committee To Review Generic Requirements

SUBJECT: **REVISED** MINUTES OF THE COMMITTEE TO REVIEW GENERIC
REQUIREMENTS MEETING NUMBER 371 - REISSUED TO
CORRECT ADAMS ACCESSION NUMBER

The Committee To Review Generic Requirements (CRGR) held special Meeting No. 371 on April 30, 2002, from 1:00 P.M. to 3:00 P.M., with the attendees listed in Attachment 1 (ADAMS Package Accession Number ML021410186). The purpose of this meeting was to consider endorsement of Draft Regulatory Guide DG-1118 (Proposed Revision of Regulatory Guide 1.153), "Application of the Single-Failure Criterion to Safety Systems," (ADAMS Accession No. ML021990721).

Mr. Satish Aggarwal, Office of Nuclear Regulatory Research (RES), briefed the CRGR on the Draft Regulatory Guide DG-1118.

The CRGR and staff agreed that the Draft Regulatory Guide DG-1118 required modification as to not imply backfit and parts of the verbiage are to be clarified. The result of clarifying the verbiage is to establish and maintain the integrity and the intent of the regulatory guide, specifically in the matter of various editions of the Institute of Electrical and Electronics Engineers (IEEE) standards addressing Application of the Single-Failure Criterion to Safety Systems.

Soon after the CRGR meeting Mr. Aggarwal provided to the Chairman (Joseph Murphy) a revised Draft Regulatory Guide DG-1118 with the required changes and was subsequently approved for release to the public for comments. After review and analysis of the public comments the Draft Regulatory Guide DG-1118 will be brought back before the CRGR for final review.

Questions about these meeting minutes should be referred to Les Cupidon at LRC@nrc.gov.
