125 South Main Street
Greeneville, TN 37743

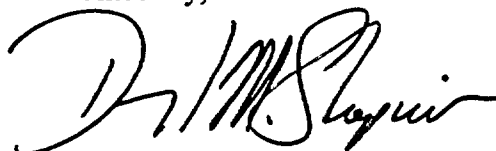

Dear Mr. Chapman:

This responds to your September 12, 2002 letter requesting a copy of NFS' license amendment application about which your clients have requested a hearing.

For your convenience, I have enclosed a copy of the application. I note, however, that this application, dated February 28, 2002, has been available on the NRC's Public Electronic Reading Room ("ADAMS") and from the NRC's Public Document Room (800-397-4209) since June of this year. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html>. The accession numbers for the NFS cover letter and the amendment application are ML020730343 and ML021720458, respectively. Moreover, the NRC's July 9, 2002 Federal Register notice specifically identifies the Environmental Assessment (EA) relating to the license amendment by date and accession number, and refers the reader to the ADAMS system. The EA provides explicit notice of the license amendment application in several places.

Please call me if you have any questions.

Sincerely,

Daryl M. Shapiro
Counsel for Nuclear Fuel Services, Inc.
