RECEIVED

Dear Mr. Stearn,

all = T. Harris (teh)

I am deeply concerned about the production of mox from weapons plutonium on the Savannah River nuclear site. Radioactive waste volumes will increase even further and transport of plutonium is dangerous. I will no longer travel to Congress or Savannah from Atlanta if this production of mox takes place at the Savannah River site. I urge you to reconsider the decision to use this site to generate dangerous radioactive waste. Would you want it in your back yard? Certainly not!

Template = ADM-013

E-RIDS = 03

Sincerely,

Diane F. Molteni
