Hello,

I am writing to express my opposition to the proposal by LES to build a uranium enrichment plant outside of Nashville. This process has been very unfair from the beginning. I feel deceived by initial focus on Erwin, TN. Suddenly the location was decided to be Hartsville. The conclusion seems to have been foregone. Citizen input has hardly been welcomed and there is very little discussion of the potential dangers. I do not think east TN needs another nuclear facility. It is already very polluted here.
