

our mouth is."

The "it's safe" pitch is unconvincing. All it would take is one "accident" or mistake in functioning, And the U.S. Government regulatory agencies do not have a good record.

Sincerely yours,

(Mrs.) Elizabeth J. Neher

Dear Sir:

I am writing in opposition to the proposed Hartsville location for an Uranium Enrichment Facility.

My family buys our vegetables from an organic farmer in that area.

In fact, we belong to a CSA. (community supported agriculture). Uncontaminated food is vitally important to us. We are putting our money where
