Dear Mr. Lesar,

I am writing to oppose the ruling, requested by Louisiana Energy Services, that would bar the public from raising questions regarding the proposed uranium enrichment plant near Hartsville, TN.

I trust that you and the Nuclear Energy Commission will use your power to prevent this ruling from being accepted, and you will allow the public, as well as local and state agencies, to address issues they consider pertinent to the proposed plant. Not allowing such input would be a grievous injustice.

Thank you for your attention to this concern of many besides myself.

Yours very truly,

Ursula Osborne
