Subject: Uranium Enrichment Plant in Hartsville TN

Mr. Johnson,

My name is Ronald M. Brouwer. I live in Trousdale County TN. I am a full supporter of LES bringing the enrichment plant to Hartsville. A little about myself, I spent my childhood on the shores of Lake Erie in Oak Harbor, Ohio, within plain view of the Davis-Besse Nuclear Power Plant. I have always had pleasant memories of my childhood and am living a healthy life. I am now 30 years old and living in Trousdale County. I have been living here almost three years. Before moving here I was in the United States Navy where I lived 2/3 of each year onboard a Nuclear Ballistic Missile Submarine (within hundreds of feet of a nuclear reactor at all times). The point of my e-mail is that I have lived most of my life benefiting from Nuclear Power. What some people fail to realize is that nuclear power is safe and that there are strict regulations that are followed to the "T" to ensure everyone's safety. What everyone does see is that there are groups out there that oppose anything nuclear because of its possible risks. There are risks to everything. I believe that the benefits of bringing the plant to Hartsville far outweigh any risk.

Thanks for listening.

P.S. Where do I sign up for a job?

Ronald M. Brouwer
