SECTION 1

NRC FORM 313 (8-1999) 10 CFR 30, 32, 33 34, 35, 36, 39 and 40	U. S. NUCLEAR REGULATORY COMMISSION	APPROVED BY OMB: NO. 3150-0120	EXPIRES:06/31/2002
APPLICATION FOR MATERIAL LICENSE		Estimated burden for responses to comply with this mandatory information collection request: 7.4 hours. Submission of the application is necessary to determine that the applicant is qualified and that adequate procedures exist to protect the public health and safety. Send comments regarding burden estimate to the Records Management Branch (7-B 50), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet e-mail to bja1@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NRC-10202, (3150-0120), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.	

INSTRUCTIONS: SEE THE APPROPRIATE LICENSE APPLICATION GUIDE FOR DETAILED INSTRUCTIONS FOR COMPLETING APPLICATION. SEND TWO COPIES OF THE ENTIRE COMPLETED APPLICATION TO THE NRC OFFICE SPECIFIED BELOW.

NMSS/RGN MATERIALS-002

Megarad, Inc
417 East 64th Street
New York, NY 10021

October 1, 2002

United States Nuclear Regulatory Commission
Region 1
475 Allendale Road
King of Prussia, Pennsylvania 19406-1415

Attention: John Kinnerman, Chief

Docket Nos. 03034615
03036064

License Nos. 06-30423-01
38-30746-01

Control Nos. 131703
131702

Dear Mr. Kinnerman,

Please excuse the delay in responding to your request. It is truly unacceptable that a license that has never had any radioactive material could cause so much consternation. Please allow me to address your questions and concerns. In response to the request for additional information concerning the above referenced licenses the following information is provided.

1. Dr. Crihan does not wish to terminate the license at this time. We appreciate your patience and consideration in this matter. Part of the delay in procuring material has been the need to change storage location and the change of personnel. World events have caused proposed projects to be extended to future dates.
2. For the purpose of information concerning radiation safety, please forward all correspondence to:

Megarad, Inc.
Garry Balestracci
29 Ridgewood Road
Charlestown, RI 02813
(401) 364-0652
(401) 364-3238 -Fax

The responsibility of Balestracci Unlimited (Garry Balestracci) is to function as the Radiation Safety Officer and provide training and radiation safety consultation as required.

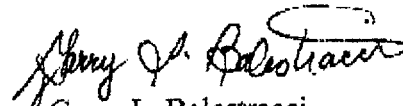

For any other information regarding the Megarad, Inc operation please contact:

Dr.Ioan Crihan
Megarad, Inc.
417 East 64th Street
New York, NY 10021
(212) 472-0840
(212) 288-0916 - Fax

No change of ownership or control of this entity has occurred. The company structure remains intact as previously described on the original license (06-30423-01) application.

3. A copy of the license application signed by Dr. Crihan will be forwarded under separate cover.
4. Radioactive Material Storage will be at the Quality Services Laboratories, Inc Facility. QSL will have no involvement in the physical use of the licensed material. The agreement involves only storage of licensed material at that facility.
5. Again same as Number 4. I apologize for the confusion. There is no intention or agreement to use the Trainer, Pennsylvania Facility for other than storage of licensed material.
 - a. At such time as Megarad, Inc possess radioactive material under this license, the storage are will be subdivided to segregate Megarad material from QSL material. Currently Megarad does not posses any licensed material.
 - b. A nameplate will be affixed to the exposure device, source changer or shipping container indicating that the material is under the specific control and authorization of Megarad, Inc.
 - c. The Radiation Safety Officer or a qualified properly trained Megarad, Inc radiographer will be responsible for the shipment and receipt of Megarad licensed materials. The material will be physically accompanied during any movement (transport) that occurs either from or to the segregated storage area.
 - d. Each licensee will have separate responsibility to perform any and all surveys of the respective storage areas necessary to ensure compliance with applicable regulations.

If any additional information is required relative to this application, please contact the undersigned. Thank you for your time, consideration and patience.

Garry L. Balestracci
Radiation Safety Officer
