U. S. Nuclear Regulatory Commission
Washington, DC 20555

ATTENTION: Document Control Desk

SUBJECT: Calvert Cliffs Nuclear Power Plant
Independent Spent Fuel Storage Installation Docket No. 72-8
Radioactive Effluent Release Report

REFERENCE: (a) Independent Spent Fuel Storage Installation Technical Specification 6.3

As required by Reference (a), the Radioactive Effluent Release Report for the Calvert Cliffs Independent Spent Fuel Storage Installation is provided. Meteorological data is being kept in our onsite file and will be available upon request.

Should you have questions regarding this matter, we will be pleased to discuss them with you.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Mark E. Tonacci".

Independent Spent Fuel Storage Installation (ISFSI), Technical Specification 6.3

There were four casks of spent fuel transferred to the ISFSI during 2002. No quantity of radionuclides was released to the environment during the ISFSI operation in 2002. Additional information regarding the ISFSI environmental radiation monitoring program is included in the Annual Radiological Environmental Operation Report.
