Tim,

Region III has scheduled a regulatory conference with Point Beach for the preliminary red finding involving AFW pump recirculation valves loss of instrument air for April 29, 2002 at 9:00 am (CDT). Since a red finding is involved, I presume that NRR will want to participate. Please inform NRR and let Ron Langstaff or myself know who from NRR will be participating.

Brent, I have not. Who do I need to be talking to?

- Ron

>>> Brent Clayton 04/12/02 01:31PM >>>

Have you coordinated this schedule with NRR? I'm sure that since this is preliminary red finding/NOV that someone will want to participate in person or by phone or video.
