Subject: Change in Registration of LS-101 and SH-300 Series Sources & Shields

Reference: Registry Numbers NR-504-D-111-B and NR-504-D-109-B

Dear Sir:

Enclosed is a copy of our Quality Assurance Manual to assist you in evaluating our request for changes in the Registrations of LS-101 and SH-300 series sources and shields. It is our intention to obtain the sealed sources from the existing manufacturers while we assume the manufacture and servicing of the shields and distribution of the devices. The sealed sources will comply with the existing specifications and will be inspected on receipt here, as described in our Quality Assurance Manual.

I am also enclosing fresh copies of the Registries for your convenience, since the most recent copy was faxed and the first set was returned to us after your conversation with Gary Robertson.

Please contact me by fax or voicemail if you need any further information. Thank you for your assistance.

Regards,

Edwina Milicic
