Subject: Comments on Proposed Agreement Between the Nuclear Regulatory Commission and the State of Wisconsin

Dear Mr. Lesar:

The Office of the Executive Director of the Conference of Radiation Control Program Directors, Inc. (CRCPD) strongly supports the proposed agreement between the Nuclear Regulatory Commission and the State of Wisconsin. The members and staff of CRCPD have been working with the state of Wisconsin for several years as they prepared the legislation, regulations, and technical programs needed to extend their radiation protection program to cover certain NRC regulated materials.

CRCPD will continue to work with Wisconsin, the other Agreement States, the Organization of Agreement States, and the Commission to formulate standards and regulatory programs for protection against hazards of radiation and to assure that the Commission and State programs for protection against hazards of radiation will be coordinated and compatible.

Sincerely,

Ronald G. Fraass
Executive Director
