No one has been asked that I know of. Brookhaven seemed to think it was a prohibited document. Since a reporter requested it could you assign someone in NRR to review it?

Our designated group has not. I can check to see if someone in NRR/Projects/Decommissioning has. Do you know how (or to whom) OPA asked for help from NRR?

Has anyone reviewed NUREG/CR-6451, Safety and Regulatory Assessment of Generic BWR and PWR Permanently Shut Down Nuclear Power Plants (1977)? It was a study done by Brookhaven. They had a request for it from a reporter.
