Subject: Re: NUREG-1738, Spent Fuel Pool Study
Place: NRR_INFOREVIEW.owf4_po.OWFN_DO@nrc.gov

Thank you. We are happy to remove it from the PDR restricted list. We only have a paper copy in the PDR, but the report was formerly available on the public ADAMS and the external web site. We have forwarded your email to the staff of ADAMSIM and NRCWEB.

Regards,
Linda Kilgore

In response to a FOIA request, the NRR info review team looked at NUREG-1738, "Technical Study of Spent Fuel Pool Accident Risk at Decommissioning Nuclear Power Plants," and determined that the report does not contain sensitive information and may therefore be released to the public. This is a document that had been re-profiled in ADAMS in Oct 01. Can you please let the appropriate contact in OCIO know that the document may be put back on the public server. Call me (Bill Reckley, x1323) if you have any questions. Thanks...
