NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

July 9, 2003

Mr. Doug Walters
Director of EP and Security
Nuclear Energy Institute
1776 I Street, NW, Suite 400
Washington, DC 20006-3708

Dear Mr. Waters:

The purpose of this letter is to provide the Nuclear Energy Institute the March 2003 update to NUREG/CR 6190 (Attachment). This update contains safeguards information (SGI) and requires commensurate handling. The update is provided for your information and for your appropriate sharing of information to assist power reactor licensees.

The information provided by these curves and standoff distances will allow power reactor licensees to ascertain the impact on their sites due to considerations associated with specific vehicle bomb sizes, extending beyond the current design basis threat for power reactor facilities.

If you have any questions concerning the attachment or its intended use, please direct them to Jesse Arildsen at (301) 415-7779.

Sincerely,
