RE: NUREG-1767

Dear Michael T. Lesar:

I am writing to express my concerns about using plutonium bomb fuel as an energy source. Currently, I strongly believe this is a dangerous idea that should not come to fruition. It is imperative to not only protect, but also enhance the quality of life for the citizens and the environment. Safer and cheaper options need to be investigated before using MOX as an energy source.

Sincerely,

Jennifer Zanck
