Subject: Fwd: Review of Web Site in Response to Terrorist Attack

See Fran Goldberg's message, attached. I know you have been involved in the web review and you are invited to attend the steering group meeting in person, or else have your steering group rep handle this at next week's meeting -whichever you prefer.

**Subject:** Review of Web Site in Response to Terrorist Attack

All -

Many of you are aware that we are in the process of reviewing our entire public Web site in response to the terrorist attack. In developing a plan for restoring the public site, it has been decided that it would be more efficient to rebuild the site using the redesigned format than to make modifications to the existing site. Therefore, it is necessary for all offices with a presence on the public Web site to review the material on the **redesigned** site to ensure that the information is appropriate in light of the changed environment. NRR and NMSS are already reviewing the reactors, materials, and waste areas of the site. **By this e-mail, I am requesting that addressees review their pages of the redesigned site that come under "Who We Are" and "What We Do" (see the following urls:**

<http://nrcweb:303/who-we-are.html>

<http://nrcweb:303/what-we-do.html>)

Please provide your response in the form of **marked up pages** to Nita Beeson by cob Tuesday. I realize that this is a short deadline, but the Commission and EDO have placed a high priority on restoring our Web site.

Those of you that are the sponsors of document collections will be asked to review your collections as well (See <http://nrcweb:303/reading-rm/doc-collections.html>). I will contact you separately about each collection to be reviewed.

Your cooperation is appreciated. Our strategy will be further discussed at the Web Redesign Steering Committee Meeting next Tuesday. Please ensure that your office is represented. Thanks!

Fran
