Maria,

Following up on our discussion of the Environmental Justice issue, I am enclosing the section from the PFS FEIS that discusses the treatment of Environmental Justice. As you will see, the staff refers to the 20% and 50% thresholds as criteria, and applies these criteria in the same manner that we have proposed in our LES White Paper. This is consistent with the staff's statement upon the publication of NUREG-1748 for comment that it would be used on an interim basis as the applicable guidance for reviewing the EJ issue.
