Subject: Re: LATEST REVISION TO DAVIS-BESSE RESTART ACTION MATRIX

Since Patricia has the lead for the allegations on RCP gasket leakage, can she address the Gunter questions(E23,E24)? I will send along that email.

Attached is the latest revision to the RAM based on meetings with Zelig on Thursday, e-mails from Christine today, and a meeting with Christine on Friday. We still need to assign many of the SUP item numbers and the two new items (E-23 & E-24) from Gunter.
