OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Greetings,

To whom it may concern:

Please be advised that I am absolutely and unconditionally opposed to using ANY nuclear waste in any form or for any purpose for any public commercial daily use.

I object to the NRC making any rules that legalizes public exposure to nuclear waste that would allow radioactive materials to be released from regulatory control.

Further, I ask the NRC to report on and recapture all the nuclear wastes already deregulated over the years.

I firmly believe that the use of these waste products is hazardous to the health of my family and our citizens now and will continue to be so in the future.

Respectfully,

Mrs. Jeanne Marie Black-Ferguson
