Re: *GANE's Opposition to Summary Disposition Motion by DCS*

Dear Judge Moore,

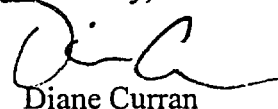

On behalf of Georgians Against Nuclear Energy, I am submitting Georgians Against Nuclear Energy's Opposition to Duke Cogema Stone & Webster's Motion for Summary Disposition of Contentions 1 and 2.

Please note that Exhibits 1, 2, 3, and 4 probably contain proprietary information, and therefore they have been marked as confidential documents.

In addition, in an abundance of caution, I have marked the Opposition itself as a confidential document, although I do not believe that it contains proprietary information. Shortly, I intend to request a determination from counsel for DCS as to whether the Opposition can be publicly released.

In accordance with the Board's standing order on service of confidential documents, the opposition and its attachments are being served only on the ASLB, and counsel for DCS and the NRC Staff. BREDL is being served with a copy of this cover letter.

Sincerely,

Diane Curran
