OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Hello,

In response to hearing that the US Nuclear Regulatory Commission (NRC) is one several US government agencies pushing for nuclear waste to be dispersed, unregulated, into everyday commerce. I would like to comment on the uses and disposition of nuclear waste.

My request is that NRC report on and recapture all the nuclear wastes they have already deregulated over the years, since they claim no harm has come from it. I believe this past and future waste should be sent to licensed radioactive waste dumps.
