Mr. Tom Rudasill  
Vespasian Warner Public Library District  
310 N. Quincy Street  
Clinton, Illinois 61727

SUBJECT: REQUEST FOR LIBRARY SHELF SPACE TO STORE COPIES OF  
CORRESPONDENCE BETWEEN THE U.S. NUCLEAR REGULATORY  
COMMISSION AND EXELON GENERATION CORPORATION

Dear Mr. Rudasill:

The purpose of this letter is to request the use of shelf space in the Vespasian Warner Public Library, 310 N. Quincy Street, Clinton, Illinois, to store copies of correspondence between the U.S. Nuclear Regulatory Commission (NRC) and Exelon Generation Company (Exelon) for the approximate time period of July 2003 through July 2006. Exelon has notified the NRC that it expects to file an application in June 2003 for an early site permit (ESP) for one or more new reactors at the existing Clinton Power Station, located on Highway 54 east of Clinton. The issuance of an ESP would be separate from the issuance of a license to construct or operate an additional nuclear power plant. The NRC would like to make correspondence on the ESP project available to the local public in the vicinity of the proposed site. Although such correspondence will be maintained electronically in the NRC's Agencywide Documents Access and Management System (ADAMS) section of the Public Electronic Reading Room component on the NRC Web Site at <http://www.nrc.gov/reading-rm/adams.html>, the NRC would like to make paper copies of the documents available to the local public for those people that do not have access to ADAMS or who may experience problems in accessing the documents located in ADAMS. I would appreciate your consideration of this request. Your reply can be addressed to me at the USNRC, Mail Stop O-4D9A, Washington, DC, 20555.

Questions regarding this request can be addressed to me at e-mail [nvg@nrc.gov](mailto:nvg@nrc.gov) or at 301-415-1180.

Sincerely,

/RA/

Nanette V. Gilles, Senior Project Manager  
New Reactor Licensing Project Office  
Office of Nuclear Reactor Regulation
