1. All public comments submitted by members of the public, members of industry, and all other organizations concerning the September 7, 1960 Federal Register notice released by the Nuclear Regulatory Commission (NRC) regarding a Notice of Proposed Rulemaking which proposed revisions to NRC's 10 CFR Part 40 regulations.
2. Any scoping reports, summary reports or other materials prepared describing the substance of the documents listed in Requested Item #1.
3. All documents reflecting, documenting or relating in any way to proposed or final implementation of or revisions to the NRC definitions of *source material* and *special nuclear material*.

This request should be considered an appeal from any decision denying any portion of this request and prompt notice of any action taken with respect to such appeal is requested.
