Nuclear Regulatory Commission:

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Dear Secretary:

I'm concerned about radioactive material coming on the market in the form of consumer goods.

The NRC accepts the validity of the linear, no-threshold (LNT) model of human exposure to radioactivity, which holds that "any increase in dose, no matter how small, results in an increase in risk" to human health.

I am concerned for and involved with future generations.

Sincerely,

Anne Whitefield
