QA: N/A

Joseph D. Ziegler, Acting Director
Office of License Application and Strategy
U.S. Department of Energy
Office of Civilian Radioactive Waste Management
Office of Repository Development
P.O. Box 364629
North Las Vegas, NV 89036-8629

**CONTRACT NO. DE-AC28-01RW12101 – FISCAL YEAR (FY) 2003-2005 KEY
TECHNICAL ISSUE (KTI) AGREEMENT ITEM RESPONSE SCHEDULE**

1. Reference: Ltr, Williams to Ziegler, dtd 5/30/03, Log # 0530037506
2. Reference: Ltr, Mitchell to Arthur, dtd 5/30/03, Log # 0527037448
3. Reference: Ltr, Williams to Ziegler, dtd 11/7/02, Log # 1104024970

Enclosures 1 and 2 are the Bechtel SAIC Company, LLC (BSC) schedule for delivery of responses to KTI agreement items and known U.S. Nuclear Regulatory Commission (NRC) "Additional Information Needed" (AINs) from this point through FY 2005. Enclosure 1 provides schedule dates for all FY 2003 – 2005 KTIs that are ungrouped. Enclosure 2 provides schedule dates for KTIs grouped for delivery in FY 2003. These responses will address the 215 KTI agreement items that the NRC has statused as "not complete." Our accounting is as follows:

• Complete KTI Agreement Items	78
• KTI Agreement Items Owed to NRC	173
• AINs	32
• In NRC review	<u>10</u>
• Total KTI Agreement Items	293

Enclosure 2 is an update to the FY 2003 KTI Schedule Table presented in References 1 and 2. Enclosure 2 identifies 59 KTI agreement items that have been grouped into subject areas correlating to their relevant parts of the Yucca Mountain Project postclosure licensing case as discussed in Reference 1. These items will be addressed in the context of that licensing case and will be scheduled as baseline milestones in the Integrated Project Schedule.

The remaining 109 KTIs and 38 AINs (FYs 2003-2005) are currently scheduled for individual submittal but will be evaluated for either inclusion in a KTI group or combination with other related, but ungrouped, KTIs or AINs. To the extent practical, the schedule reflects a levelized workload consistent with the need for flexibility discussed in Reference 3.
