

DOCKET NUMBER  
PROPOSED RULEPR 20  
(68FR09595)

538

**From:** Donna Hinderliter <dona12@webtv.net>  
**To:** <secy@nrc.gov>  
**Date:** Sun, Jun 22, 2003 4:17 PM  
**Subject:** rulemaking on controlling the disposition of radioactive materials

DOCKETED  
USNRC

I am writing to urge you to prohibit the proposed deregulation of radioactive waste and radioactive materials.

June 23, 2003 (11:43AM)

There is no safe level of exposure to the proposed items. Putting these wastes and materials out into our environment would be a hazard to public health.

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Companies that generate these radioactive wastes and materials should be required to contain it in a regulated, disposal manner. Certainly the companies should bear the burden of these costs, since they received the profits.
