

**DOCKET NUMBER****PROPOSED RULE PR 20****68FR09595**

**From:** "Beal" <b@chartermi.net>  
**To:** <secy@nrc.gov>  
**Date:** Mon, Jun 23, 2003 11:31 AM  
**Subject:** Fake emails about nuclear waste recycling

I don't know much about the topic of nuclear waste recycling, but I DO know that there's a computer-driven plan afoot to generate hundreds of messages to you, all of which are signed by people who neither conceived nor wrote them. The computer even randomly varies the Subject to deceive you into not realizing they're all from the same source.

Please take them with a large grain of salt.

Best regards,

John Beal
