Subject: No more nuclear waste recycling

736

To the NRC:

You have requested comments concerning the control of nuclear waste of various kinds.

I am amazed and disgusted at any hint that nuclear wastes might be recycled, reused, or otherwise -- in any form -- allowed to come into contact with our people, our air, our soil, or our environment.

Decades of experience with nuclear waste and byproducts have shown that they are extremely dangerous! Please do not relax your standards or allow these wastes to be recycled or re-used, at all.

Sincerely,

Paul Lappen
