

DOCKET NUMBER
PROPOSED RULE PR 20**68FR09595**

Subject: nuclear waste dumping restrictions

1612

I have hear that NRC nuclear waste disposal restrictions may soon be relaxed. Please do not in any way, under any circumstances, relax the NRC guidelines for disposing of nuclear waste. In fact, if at all possible, tighten them. The rate of decay of nuclear waste is far too slow to be making myopic policy alterations during our lifetime when we can't possibly know what the implications of those decisions will be in the distant future for our children, their children and their children's children.
