

**DOCKET NUMBER
PROPOSED RULE PR 20****68FR09595****1669**

From: <Gregori341@aol.com>
To: <secy@nrc.gov>

Subject: No Nuclear Waste in the Marketplace

Allowing currently licensed and regulated nuclear wastes to be cleared from regulatory control in either a restricted or unrestricted way would result in unnecessary exposures to people and other living things. There are better ways to manage radioactive wastes.

I urge you to do your utmost to protect humans and the environment from radioactive contamination.
