

DOCKET NUMBER
PROPOSED RULE PR 20

68FR09595

1737

From: Tawni Lynn Tidwell <ttidwell@stanford.edu>
To: <secy@nrc.gov>
Date: Thu, Jun 26, 2003 11:23 AM
Subject: Public Comment on Disposition of Nuclear Waste

To whom it may concern,

I do not support nuclear waste entering unrestricted or restricted commerce, nor do I support it being treated like regular trash. I strongly support nuclear waste being sent to licensed radioactive waste dumps, and urge the NRC to report on and recapture all nuclear waste that it has already deregulated over the years. I am concerned with the effect on public health and safety and environmental damage due to contact with radioactive materials. Even if the material is just in a bridge or roadway does not mean it prevents it from coming in contact and potentially having pathogenic responses in living organisms.

Thank you,
Tawni Tidwell
US Citizen and Stanford University student
