Mr. H. A. Sepp, Manager  
Regulatory Compliance and Plant Licensing  
Westinghouse Electric Company, LLC  
Nuclear Services  
P.O. Box 355  
Pittsburgh, PA 15230-0355

SUBJECT: WESTINGHOUSE ELECTRIC COMPANY, LLC, REQUEST FOR  
WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE FOR SURRY  
POWER STATION, UNITS 1 AND 2 (TAC NOS. MB6752 AND MB6753)

Dear Mr. Sepp:

By letter dated June 9, 2003, Virginia Electric and Power Company submitted an affidavit, CAW-03-1645, dated May 28, 2003, executed by you, requesting that information contained in the letter entitled "Proposed Technical Specifications Change Deletion of Monthly Analog Rod Position Test Request for Additional Information," be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.790. A nonproprietary copy of this document has been placed in the Nuclear Regulatory Commission's (NRC's) Public Document Room and added to the Agencywide Documents Access and Management System Public Electronic Reading Room.

The affidavit stated that the submitted information should be considered exempt from public disclosure for the following reasons:

- (i) The information sought to be withheld from public disclosure is owned and has been held in confidence by Westinghouse.
- (ii) The information is of a type customarily held in confidence by Westinghouse and not customarily disclosed to the public.
- (iii) The information is being transmitted to the Commission in confidence.
- (iv) The information sought to be protected is not available in public sources or available information has not been previously employed in the same original manner or method to the best of our knowledge and belief.
- (v) Public disclosure of this proprietary information is likely to cause substantial harm to the competitive position of Westinghouse because it would enhance the ability of competitors to provide similar system features, interfaces, analyzed plant parameters, displays and alarms, and licensing defense services for commercial power reactors without commensurate expenses.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the versions of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I can be reached at 301-415-1055.

Sincerely,

*/RA/*

Christopher Gratton, Sr. Project Manager, Section 1  
Project Directorate II
