

**DOCKET NUMBER  
PROPOSED RULE PR 20****68FR09595**

**From:** <NonukesHW@aol.com>  
**To:** <secy@nrc.gov>  
**Date:** Fri, Jun 27, 2003 12:26 PM  
**Subject:** low level waste policy: putting radioactive material into our homes

1875

To the Nuclear Regulatory Commission:

The idea of putting radioactive waste into the commercial waste stream is absolutely criminal.

Do not, under any circumstances, allow radioactive materials to be put into the commercial waste stream or civilian dumps.

We MUST be responsible about the future of our society, our ecology, our children.

It is unconscionable that you would even consider anything but the highest levels of security for disposing of these materials.

Thank you,

Harvey Wasserman  
Citizens Protecting Ohio
