Secretary, US Nuclear Regulatory Commission
Washington, DC 20555
Attention: Rulemaking and Adjudications Staff

Dear Sir or Madam:

I would like to register my strong opposition to the release of any radioactive waste into commerce and/or the environment. It appears that your Choice #5 most closely matches this position, but I am not sure.

There is no "safe" dosage of radioactivity stemming from nuclear power byproducts and all such waste must be disposed of with the utmost care so that it does not recirculate into commerce or the environment.

Thank you for the attention.

Sincerely,

Ruth Kastner
