PROPOSED RULE PR 20****68FR09595**

From: <SMTansky@aol.com>

Subject: re: reuse of radioactive waste

1867

Please do not approve the recycling of radioactive waste. No amount of radiation is safe, and it is pure folly to incinerate, landfill, put it in commercial products, buildings, etc. There is only one place for this most dangerous of materials: Permanent monitoring and stop producing it. To do otherwise, puts all of the citizenry in this country at grave risk.

Thank you for your consideration.
