Dr. Jacob Paz  
P.O. Box 33036  
J&L Environmental Service, Inc.  
Las Vegas, NV 89133

Dear Dr. Paz:

I am responding to your letter of invitation to participate in a roundtable discussion, concerning environmental health and safety issues, at the May 2004 meeting of the American Industrial Hygiene Association in Atlanta, Georgia. We understand from your letter that you would like the U.S. Nuclear Regulatory Commission (NRC) to participate in discussion of the scientific aspects of the proposed high-level waste repository at Yucca Mountain, Nevada.

To better understand the scope and goal of the panel discussions and what you expect from NRC's participation in such a roundtable, Dr. Philip Justus of the High Level Waste Branch telephoned you the week of July 14. Based on those discussions, I understand that panel organizers need more time to make decisions and provide NRC with specific information on such issues as: (1) purpose, goals, type, and conduct of the panel discussion; (2) expectations for NRC's participation; (3) other participants and their roles and topics; and (4) panel logistics such as time allocations. We understand that you will contact NRC again on this matter, later this summer, to provide further details, as you and Dr. Justus discussed. After considering the additional information, NRC will decide whether it will participate in the panel discussion.

Thank you for your interest in NRC's participation. We look forward to further discussions on this matter. Feel free to contact Dr. Philip Justus, High Level Waste Branch. He can be reached at 301-415-5669 or e-mail: [psj@nrc.gov](mailto:psj@nrc.gov).

Sincerely,
