To even consider using this nuclear material for other uses is idiotic!

- > * Focus the rulemaking on better ISOLATING nuclear waste from the public
- > and the environment rather than dispersing deliberately;
- > * PROHIBIT RELEASE of radioactive wastes and materials from nuclear power
- > and weapons into the marketplace for unrestricted or conditional uses;
- > * Prevent additional radiation exposures rather than "justifying" them with
- > computer
- > codes and dose modeling created by nuclear advocates. We oppose "dose-based"
- > or "risk-based" standards;
- > *, accept NO dose above naturally occurring background and voluntary
- > exposures for our own personal benefit, since there is no safe dose of ionizing
- > radiation; and
- > * Stop poisoning us and the recycling industries with ANY level of
- > radioactive contamination from nuclear power and weapons fuel chain activities.
