FR 2-28-03 Controlling the Disposition of Solid  
Materials

I oppose any further deregulation. Please do NOT  
allow re-use, release & recycling of any radio-  
active materials. Don't Let Go of Them. Low  
doses are harmful. NRC ought to be recapturing  
lost, stolen & deregulated NORM, TENORM etc. etc.  
are taking control of it. STOP generating more  
radioactive waste. Please - don't Let go.

Tina Daly
