RULEMAKINGS AND
ADJUDICATIONS STAFF

3126 N. 70th
Scottsdale AZ 85251
24 June 2003

Secretary
NRC
Washington DC 20555

Sirs:

I am writing in opposition
to the deregulation of radio-
active waste. NRC-licensed
facilities must not be allowed
to incinerate, 'release', 'reuse'
or 'recycle' ANY nuclear
waste — metal, concrete,
soil, plastics, chemicals,
etc. I don't want radioactive
waste in products that I
buy!

Your only regulatory options
are to strictly prohibit any
deregulation. Radioactive waste
must be isolated from humans
and the environment.

Yours truly,
Katherine Baron
