Mr. James F. Mallay, Chair  
ANS Standards Steering Committee  
American Nuclear Society  
555 North Kensington Ave.  
La Grange Park, IL 60526

SUBJECT: NOMINATION OF JAMES E. LYONS TO ANS N-17 COMMITTEE

Dear Mr. Mallay:

I would like to nominate Mr. James E. Lyons as the authorized U. S. Nuclear Regulatory Commission's (NRC) representative on the American Nuclear Society Standards Committee N-17: Research Reactors, Reactor Physics, Radiation Shielding, and Computational Methods. Mr. Alexander Adams, Jr. continues as the authorized NRC alternate representative. Mr. Lyons is the Program Director of the New, Research and Test Reactors Program within the Division of Regulatory Improvement Programs of the Office of Nuclear Reactor Regulation of the NRC and is responsible for research and test reactors and the licensing of future reactors.

In accordance with the Office of Management and Budget Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.
