SUBJECT: RE-ISSUANCE OF REQUEST FOR ADDITIONAL INFORMATION LETTER
NO. 4 RELATED TO ESBWR PRE-APPLICATION REVIEW
(TAC NOS. MB6283 AND MB6801)

Dear Dr. Rao:

By letter dated June 20, 2003, the NRC staff requested General Electric Company (GE) to provide additional information regarding NEDC-33080P, "TRACG Qualification for ESBWR," NEDC-33083, "TRACG Application for ESBWR," NEDE-32176P, Rev. 2, "TRACG Model Description," and NEDE-32177P, "TRACG Qualification," related to the ESBWR pre-application review. The letter requested that you review the requests for additional information (RAIs) for proprietary information. A meeting was held on June 25, 2003, to discuss the RAIs in detail. During this meeting, you informed me that some of the RAIs contained proprietary information, and you identified this information line by line pursuant to the criteria of 10 CFR 2.790. The enclosed RAIs have been revised to remove the proprietary information. Please provide the requested information by August 15, 2003, so that the review can be completed in a timely manner. Partial submittals would be welcomed to minimize delays.

If you have any questions or comments concerning this matter, you may contact me at (301) 415-2875 or aec@nrc.gov.

Sincerely,

/RA/
