

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

July 16, 2003

Mr. John Widomski, Radiation Safety Officer
Perkin Elmer Instruments
710 Bridgeport Avenue
Shelton, CT 06484

SUBJECT: AMENDMENT OF REGISTRATION CERTIFICATE NR-536-D-110-B TO
DELETE THE MODEL NO. VOYAGER DETECTOR CELL ASSEMBLY

Dear Mr. Widomski:

This refers to your request dated April 23, 2003, for inactivation of the Model Voyager Detector Cell Assembly from your registration. We amended your Registration Certificate NR-536-D-110-B to indicate that the Model Voyager device is no longer manufactured. However, we did not remove references to Voyager from the Certificate, as you requested, because the description of the device is needed for the units that are still in use as well as for historical records. A copy of the amended registration is enclosed.

Please be advised that you must manufacture and distribute the models still in production in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificate. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificate.

Please read over the registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing should you decide to no longer manufacture or offer service support for the registered products.

Please be aware that, as a holder of an NRC registration Certificate, you may be subject to the NRC's licensing fees in accordance with 10 CFR Part 170, and annual fees in accordance with 10 CFR Part 171. If you have any questions concerning the fee requirements, please contact the License Fee and Debt Collection Branch at (301) 415-6096.

J. Widomski

-2-

If you have any questions regarding this matter please contact me at (301) 415-6195.

Sincerely,

A handwritten signature in black ink, appearing to read 'DT' followed by a large checkmark.
