Synopsis	<p>Mr. Hooper is a consultant for the St. Barnabas Health System, and he is working on behalf of Kimball Medical Center to use the above license location for another HDR. He stated that there were no sources or devices remaining at the 101 Prospect Street location previously owned by Richard Jacobs, M.D. He also stated that Kimball would like to buy their own HDR to put into this location. Mr. McKinley explained that the previous license issued to Dr. Jacobs would have to be terminated so that the HDR and location could be placed on a separate license or added to Kimball's license. Mr. Hooper said that he understood and would confer with the hospital and Dr. Jacobs, then call Mr. McKinley again.</p>
