WCAP-15691-NP, Rev. 0
Project Number 694

U. S. Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555-0001

Attention: Chief, Information Management Branch
Division of Program Management

Subject: Schedule for Response to Request for Additional Information
Related to WCAP-15691-NP, "Joint Applications Report for
Containment Integrated Leak Rate Test Interval Extension"

Reference: USNRC Letter, D. G. Holland (NRC) to G. C. Bischoff (WOG), "Request for Additional Information - WCAP-15691, Rev 0, "Joint Applications for Containment Integrated Leak Rate Test Interval Extension (TAC No. MB6806)," June 16, 2003.

By means of the above reference, the NRC indicated that Westinghouse would provide responses to the subject Request for Additional Information (RAI) within 30 days of receipt or approximately by July 25, 2003.

The purpose of this letter is to correct a misunderstanding in the schedule for responding to the subject RAIs. Westinghouse plans to submit responses to these RAIs as part of a revision to WCAP-15691. Submittal of the revised report is targeted for the fourth quarter 2003, contingent upon completion of the expert elicitation process by EPRI.

If you have any questions, please call Paul Hijeck in the Owners Group Program Management Office at (860) 731-6240.

Sincerely,
Westinghouse Owners Group

R. H. Bryan, Chairman
